Dear Sir,

Sub: Kasturba Medical College -
Management of.

You are aware the Kasturba Medical College has been brought into existence by and under the management of Academy of General Education. The Academy has also under its management a first Grade College affiliated to the University of Madras called the Mahatma Gandhi Memorial College founded four years ago and a High School where Engineering is introduced as a bifurcated course. A copy of the Constitution of the Academy is sent enclosed for your information.

Any person who is a graduate of any recognised University in India could on payment of Rs.30/- become a member of the Academy with a right to vote and voice in the management of the Academy.

A separate Trust has been created by the Academy for the purpose of managing the Kasturba Medical College. The Council of Trustees will be elected by the members of the Academy. A copy of the Trust Deed is also sent enclosed.

The cost of construction of buildings for the college its equipments and maintainance is expected to be a little over 30 lakhs of rupees. Though normally a medical college costs nearly double this amount, we, being a Private Agency, have all the advantage of chosing the best of materials and exercising utmost economy. Spreading this cost over a period of 10 years, the college is being built up on a co-operative basis, the parents of the students during the first 10 years mutually co-operating the share the burden on an uniform scale. In the absence of any financial grant by the Government to this college, the college is sought to be made into a full fledged medical college by this me-

REGISTRAR.

thod. We are grateful to the Government of Madras for assuring us elinical facilities both at Mangalore and Udipi. The birth and growth of this institution, in fact, is a true lesson in modern times as to what an amount of good is possible by fruitful public co-operation, supported by the Government. We have had already ten dead bodies for disection and satisfactory arrangements have been made both in respect of staff as well as equipment. The observations of the Director of Medical Services who was recently here and of Dr. B.H.Padmanabha Pai, M.D., formerly the Professor of Medicine of the Madras Medical College and Dr. K.C.Nambiar, President of the Indian Medical Association, South Indian Provincial Branch are also enclosed for your information.

A | It is our desire that the Government of Madras must also have a voice in the management of the College in view of the facilities that it has been giving to the College. We wish to provide if you will permit us, that on the council of management there should be a nominee of the Government of Madras as one of the Trustees. The T.A. etc., of this nominee will be borne by the Academy and hence will not entail any expenditure for the Government.

B | It is also our great desire that you should make it convenient to go over here very early, visit the College and satisfy yourself about the progress it has been making.

Yours faithfully,

REGISTRAR.

Dr. M.V.Ramanamurti, F.R.C.S., Director of Medical Services, Madras.

Dr. T.Madhava Pai had taken me round ~~to~~ the Anatomy and Physiology blocks of the Kasturba Medical College at Manipal to-day. Both the departments are equipped according to the requirements. The Physiology Department is at present stationed in a building where temporary arrangements have been made for practical work in histology, experimental physiology and bio-chemistry. There is a proposal for the construction of a new physiology block for which plans have been drawn up and the work commenced. The Anatomy block is a complete unit in itself.

Although the college was opened very recently, the teaching of students is done without any difficulty as all the necessary staff are appointed and the required equipment obtained. In course of time it should be possible to develop the museum for the Anatomy department.

Dr. Madhava Pai is to be congratulated for getting this college started well. This is a new venture and there is every sign of the College getting established fulfilling the conditions necessary for a teaching institution as required by the Indian Medical Council.

The Students are accommodated in hostels close to the Medical College and it is very pleasing to know that within a short time the rooms are suitably furnished and the students are given all the amenities possible.

I am quite sure that Dr. Madhava Pai and the members of the Academy will be able to achieve the objects for which the Academy stands.

30-7-1953. M.V.Ramanamurthi.

Dr. B.H.Padmanabha Pai, M.D., Former Professor of Medicine at Madras Medical College, now at Medical College, ~~at~~ Dihrugarh, Assam.

I was present at the inauguration ceremony of the Kasturba Medical College, Manipal, a long-cherished ambition of Dr. T.M.A. Pai and of the people of South Kanara District to have a medical College on the West Coast. I was greatly struck by the enthusiastic support of the people of the place and goodwill shown by every individual present at the function. The augurs well for its future.

I had opportunities to go round the Departments of Physiology and Anatomy and see in detail and I was pleasantly surprised, contrary to my expectations, that the departments have been furnished with more than adequate and excellent equipment most of ~~them~~ it directly imported from abroad from manufacturers of repute knowing fully the difficulties of obtaining proper technical equipment under existing control and such other restrictions and difficulties.

I must heartily congratulate Dr. T.M.A.Pai and his supporters for getting up an institution with such excellent material surmounting all such difficulties which are normally ~~that~~ met with in the starting of a technical and professional institutions.

I have no doubt about the future progress and success of the College especially with the co-operative support of the Members of the Medical Profession to this unique and pioneer effort for the cause of Medical Education by a private agency - the General Academy of Education.

2-7-1953. Dr. B.H.Padmanabha Pai.

9

Dr. K.K.Chintan Nambiar, F.R.C.S.(Edin) F.R.C.S.(Eng.) Hon. Surgeon, Staneley Hospital, President, South Indian Provincial Branch, Indian Medical Association.

The Achievement of the Kasturba Medical College transcends all imagination of the average type, and indomitable will of a Central Personality in the name of Dr. Madhava Pai is something worth wondering.

The Building and Equipments for the Anatomy and Physiology Block are quite nice and satisfactory. The enthusiasm of the people and the students are high indeed.

30-6-1953. K.C.Nambiar.

11

Sri P.R.Nayak, M.A., I.C.S., Commissioner, Bombay Municipal Corporation, Bombay.

I was happy to go round the Kasturba Medical College. This institution has taken shape in conditions of special difficulty but, for that ~~e~~very reason, illustrates what determination and a true spirit of co-operation and self-help can achieve. In its recent past, Udipi abounds in examples of this nature. But the particular merit of the Kasturba Medical College is that it seeks to give to medical education a rural basis which, in present circumstances, is much to be desired in our Country. If the institution overcomes the organisational problems of the later years of Medical Education, it will have rendered service of an invaluable character. May good ~~f~~fortune surround the institution and perseverance assure the fulfilment of its grand objective.

20-8-1953. P.R.Nayak.

GOVERNMENT OF MADRAS

Dear Sir,

Sub: Kasturba Medical College -
Management of.

You are aware the Kasturba Medical College has been brought into existence by and under the management of Academy of General Education. The Academy has also under its management a first Grade College affiliated to the University of Madras called the Mahatma Gandhi Memorial College founded four years ago and a High School where Engineering is introduced as a bifurcated course. A copy of the Constitution of the Academy is sent enclosed for your information.

Any person who is a graduate of any recognised University in India could on payment of Rs.25/- become a member of the Academy with a right to vote and voice in the management of the Academy.

A separate Trust has been created by the Academy for the purpose of managing the Kasturba Medical College. The Council of Trustees will be elected by the members of the Academy. A copy of the Trust Deed is also sent enclosed.

The cost of construction of buildings for the college its equipments and maintainance is expected to be a little over 30 lakhs of rupees. Though normally a medical college costs nearly double this amount, we, being a Private Agency, have all the advantage of chosing the best of materials and exercising utmost economy. Spreading this cost over a period of 10 years, the college is being built up on a co-operative basis, the parents of the students during the first 10 years mutually co-operating the share the burden on an uniform scale. In the absence of any financial grant by the Government to this college, the college is sought to be made into a full fledged medical college by this me-

thod. We are grateful to the Government of Madras for assuring us elinical facilities both at Mangalore and Udipi. The birth and growth of this institution, in fact, is a true lesson in modern times as to what an amount of good is possible by fruitful public co-operation, supported by the Government. We have had already ten dead bodies for disection and satisfactory arrangements have been made both in respect of staff as well as equipment. The observations of the Director of Medical Services who was recently here and of Dr. B.H.Padmanabha Pai, M.D., formerly the Professor of Medicine of the Madras Medical College and Dr. K.C.Nambiar, President of the Indian Medical Association, South Indian Provincial Branch are also enclosed for your information.

It is our desire that the Government of Madras must also have a voice in the management of the College in view of the facilities that it has been giving to the College. We wish to provide if you will permit us, that on the council of management there should be a nominee of the Government of Madras as one of the Trustees. The T.A. etc., of this nominee will be borne by the Academy and hence will not entail any expenditure for the Government.

It is also our great desire that you should make it convenient to go over here very early, visit the College and satisfy yourself about the progress it has been making.

Yours faithfully,

REGISTRAR.

Copy to Hon'ble Sri. A. B. Shetty, M.L.A.,

Madras.

Dr. M.V.Ramanamurti, F.R.C.S., Director of Medical Services, Madras.

Dr. T.Madhava Pai had taken me round to the Anatomy and Physiology blocks of the Kasturba Medical College at Manipal to-day Both the departments are equipped according to the requirements. The Physiology Department is at present stationed in a building where temporary arrangements have been made for practical work in histology, experimental physiology and bio-chemistry. There is a proposal for the construction of a new physiology block for which plans have been drawn up and the work commenced. The Anatomy block is a complete unit in itself.

Although the college was opened very recently, the teaching of students is done without any difficulty as all the necessary staff are appointed and the required equipment obtained. In course of time it should be possible to develop the museum for the Anatomy department.

Dr. Madhava Pai is to be congratulated for getting this college started well. This is a new venture and there is every sign of the College getting established fulfilling the conditions necessary for a teaching institution as required by the Indian Medical Council.

The Students are accommodated in hostels close to the Medical College and it is very pleasing to know that within a short time the rooms are suitably furnished and the students are given all the amenities possible.

I am quite sure that Dr. Madhava Pai and the members of the Academy will be able to achieve the objects for which the Academy stands.

Sri P.R.Nayak, M.A., I.C.S., Commissioner, Bombay Municipal Corporation, Bombay.

I was happy to go round the Kasturba Medical College. This institution has taken shape in conditions of special difficulty but, for that very reason, illustrates what determination and a true spirit of co-operation and self-help can achieve. In its recent past, Udipi abounds in examples of this nature. But the particular merit of the Kasturba Medical College is that it seeks to give to medical education a rural basis which, in present circumstances, is much to be desired in our Country. If the institution overcomes the organisational problems of the later years of Medical Education, it will have rendered service of an invaluable character. May good fortune surround the institution and perseverance assure the fulfilment of its grand objective.

20-8-1953.

P.R.Nayak.

Dr. B.H.Padmanabha Pai, M.D., Former Professor of Medicine at Madras Medical College, now at Medical College at Dihrugarh, Assam.

I was present at the inauguration ceremony of the Kasturba Medical College, Manipal, a long cherished ambition of Dr. T.M.A. Pai and of the people of South Kanara District to have a medical College on the West Coast. I was greatly struck by the enthusiastic support of the people of the place and goodwill shown by every individual present at the function. The augurs well for its future.

I had opportunities to go round the Departments of Physiology and Anatomy and see in detail and I was pleasently surprised, contrary to my expectations, that the departments have been furnished with more than adequate and excellent equipment most of them directly imported from abroad from manufacturers of repute knowing fully the difficulties of obtaining proper technical equipment under existing control and such other restrictions and difficulties.

I must heartily congratulate Dr. T.M.A.Pai and his supporters for getting up an institution with such excellent material surmounting all such difficulties which are normally met with in the starting of a technical and professional institutions.

I have no doubt about the future progress and success of the College especially with the co-operative support of the Members of the Medical Profession to this unique and pioneer effort for the cause of Medical Education by a private agency - the General Academy of Education.

2-7-1953. Dr. B.H.Padmanabha Pai.

Dr. K.K.Chintan Nambiar, F.R.C.S.(Edin) F.R.C.S.(Eng.) Hon. Surgeon, Staneley Hospital, President, South Indian Provincial Branch, Indian Medical Association.

The Achievement of the Kasturba Medical College transcends all imagination of the average type, and indomitable will of a Central Personality in the name of Dr. Madhava Pai is something worth wondering.

The Building and Equipments for the Anatomy and Physiology Block are quite nice and satisfactory. The enthusiasm of the people and the students are high indeed.

30-6-1953. K.C.Nambiar.
